

## Agenda for the Ending violence against women project meeting: Collective analysis of research findings

*11- 12 April 2014, Kuala Lumpur, Malaysia*

### Meeting objectives:

1. collective analysis of key trends coming out of country case studies and international level research. We will focus on uncovering trends in four areas: domestic legal remedies, internet intermediaries responsibilities, definition of technology-related VAW, and other response strategies by survivors.
2. strengthen country case studies through a collective peer review by the partners, the lead researchers and the advisors/resource people
3. network building and learning from each other
4. discuss where we want to take findings/recommendations from this research. This will guide us in shaping phase 3 of the research: repackaging & advocacy.

Day	Session title	Outcomes
<b>Day 1: Country trends</b>	Welcome & expectations	Participants understand meeting, objectives/expectations, agenda and process. Partners and research team meet each other
	Country laboratories: preparing presentation of case studies	Country partners prepare their 20 minutes presentations of cases and key trends
	11:00-11:30 Tea break	
	Presentation of case studies (2 countries)	Collective analysis of key trends coming out of country case studies.
